

**#BackToSchool: Inspire and  
Engage Undergraduate Women in  
Computing**

As change leaders for women at CU, encouraging women to persist in computing is one of the most important assignments in faculty. This newsletter features RWET initiatives and programs focused on retaining undergraduate women in computing by using strategies such as creating a sense of belonging, developing inclusive environments, and providing effective feedback using a growth mindset.

- [RWET Resources for Retaining Undergraduate Women with Student Support](#)
- [RWET Student Seed Fund](#)
- [RWET Aspirations for Creating Community](#)
- [RWET Graduate Award](#)

This RWET [Student Seed Fund](#) sponsored by faculty may be performing well RWET, as evidenced by efforts to be RWET in order to support the needs of women in computing RWET groups at different stages of development and several institutional units.

Applications are open for all three awards through October 30, 2023.

Posting of this fund is intended for existing groups interested in expanding their current efforts and programs on their campus and on their geographic region. Postings of this fund will also have the opportunity to develop an emerging RWET group at another institution. [View the Application Page](#)

The RWET Graduate Award, sponsored by RW and faculty, honors the outstanding technical accomplishments of undergraduate women of the senior level and those who meet rigorous & specific technical projects that demonstrate a high level of creativity and potential societal impact.

Each Graduate Award winner receives a \$2,000 cash award, an engraved award, and a title in the name of the awarding RWET faculty member and staff.

[Applications for the RWET Graduate Award are due here: \[RWET GraduateAward@colorado.edu\]\(#\)](#)
