

Supervising-in-a-Box Series: Employee Development

Supervising-in-a-Box Series helps establish supportive and effective relationships with a diverse range of employees. This box explores ways to reduce or remove unconscious bias, discriminatory practices, and institutional barriers while performing supervisory job functions – including recruitment, project management, performance evaluations, feedback processes, and everyday communication. Employee Development focuses on ensuring that employees contribute their best ideas and talents to the team.

Learn how to implement the “The Action to Catalyze Tech (ACT) Report” recommendations: <https://ncwit.org/CatalyzeTech>.
